

Department of Food & Nutrition

With a long tradition spanning 40 years, our department is the only department in the Yeongdong area to produce 'nutritionists' who work for schools, hospitals, companies, public health centers, etc., not just around the Gangwon and Seoul area, but all over the nation.

Specifically, since 2010, our department has been separated as the "Department of Food" and Nutrition to operate a specialized education program of raising "food & nutrition experts".
