

Department of Nursing

The Department of Nursing launched in 1967 was consolidated with the Gangneung University in 2007 and later the Gangneung-Wonju National University as of today. The master's program was established in 2008 and PhD program in 2016. Our department offers the sole PhD program in Wonju-si. The goals of our graduate program are to cultivate nursing scientists and practitioners who develop nursing theory and professional practice focusing on person, environment, health, and nursing, rigorously implement nursing education, research, and practice, and contribute to improvement of health among people through advanced nursing knowledge and practice. To achieve these goals, educational objectives are:

- 1) To understand the nursing phenomena and solve the problems through scientific research;
- 2) To acquire the recent knowledge of the nursing-related field and apply it to develop nursing theory and practice;
- 3) To have advanced professional competencies with the expertise and skills to contribute to the welfare of mankind;
- 4) To establish collaborative relationships with the multidisciplinary teams; and
- 5) To foster the leaders to create the nursing knowledge and to cope with the problems in the present and future.
